

Ninja Warrior

One of the ultimate challenges of balance is to take on the Ninja Warrior course, unfortunately you do have to be 18 or over to compete. So in preparation, we want you to design your own Ninja Warrior course. Make sure that you include a drawing and name for each obstacle and the order that it goes in. Remember it needs to be achievable, you can't have everyone falling at the first obstacle. With TEACHER OR PARENT PERMISSION you can try to create your obstacles. Use both sides of the sheet if you need. If you have time record yourself completing the course and share with your teacher.
